Honest politics

I will fight hard for a National Integrity Commission, with real teeth, to hold all politicians accountable, including myself if I am elected. I will always vote for our views and values – not vested interests or the party line.

- Hold our politicians more accountable *by supporting a national integrity commission to put an end to corruption and introduce a professional Code of Conduct for MPs.*
- Work with all levels of government, industry/business and relevant stakeholders *to ensure that decisions about the future of our region are both evidence-based and community-driven.*
- Raise the standards of Australian political debate *by putting an end to misleading and deceptive political adverts and making electoral funding transparent for all candidates.*
- Protect an impartial media *by increasing funding to the ABC and supporting factual, unbiased reporting and Australian content.*
- Speak out for underrepresented groups *including LGBTQI+, women, refugees and Indigenous Australians to ensure that they have a voice in policies that affect everyone.*
